

COOKIE POLICY

Version 1.0 · 15 October 2026

ESSENSACIONES GmbH · www.essensaciones.com

1. Controller and scope

ESSENSACIONES GmbH, Ziegelbrückstrasse 107, 8866 Ziegelbrücke (Glarus), Switzerland, CHE-247.196.101.
Contact: essensaciones@essensaciones.com. This Policy explains the use of cookies and similar technologies on www.essensaciones.com.

2. What are cookies?

Cookies are small files that a website may store on a visitor's device. Some enable requested features, such as keeping a user signed in or operating a shopping basket; others may be used for analytics or advertising.

3. Cookies currently used

According to confirmation from our technical administrator, the website currently uses only cookies necessary for its operation. These may support navigation, user registration and sign-in, the WooCommerce basket and checkout, and payment operations requested by the user. Google Analytics analytics or advertising cookies are not currently used: that service has been removed. The WooCommerce order attribution feature that generated an additional cookie has also been disabled. We do not publish individual cookie names and lifetimes because a complete, technically verified inventory is not yet available.

4. External services and links

The website may provide payment functions, WhatsApp contact and links to external services, including B2B documents on Microsoft OneDrive and bookings or tickets through Infomaniak Ticketing. When users visit an external service, that provider may use its own cookies and process data under its own privacy policy. Merely linking to a service does not mean that its cookies are automatically placed when visiting our website.

5. Embedded content

YouTube videos may be embedded on certain pages. It has not been independently verified whether these videos transmit data or place cookies before visitors interact with them. If an integration uses non-essential technologies, it must be configured to meet applicable information and consent requirements. OptinMonster is disabled and is therefore not described as an active marketing service.

6. Consent and visitor choices

Strictly necessary cookies may be used to provide requested functions without separate consent where permitted by applicable law. If analytics, advertising or other non-essential technologies are enabled in the future, we will update this Policy and provide the consent or settings options required by applicable law. Visitors may also block or delete cookies through their browser settings; doing so may affect the basket, sign-in or payments.

7. Data protection and updates

Our Privacy Policy provides information about personal data processing, service providers and individual rights. We will review this Cookie Policy if the tools, integrations or cookies actually used change. The current version is the one published on our website.
